Purpose: Discuss start up of software ideas and functionality

Minutes:

Meeting started at 4:25PM on 2022-06-22 by Dylan

A. **Framework – Flutter**
  - Originally flutter framework has mobile apps
  - We can work on both android and iPhone
  - Can control UI embedded
  - Better to import flutter framework directly onto PI instead of importing Linux on PI and treat it as a desktop application
  - Can use Figma to flutter app to translate Figma design to functional code in flutter

B. **Things to do before next meeting**
  - Dylan and Adham: look up how people use flutter in Raspberry Pi and try to set it up
  - Anika: Create basic UI to test out Figma to flutter app

C. **Next Meeting**
  - Saturday, 2022-06-25 on Discord

Meeting is adjourned at 4:45PM
